GIS Technology and Crime Mapping

Based in one of FDU's Cyber Crime Training Labs, this one-week noncredit course examines the evolution of crime analysis.

Discover how computerized mapping software revolutionized the industry. Join the search for hot spots of crime while using data tables, queries and visual display. Learn to use, create and layout maps that illustrate where to find resources and where crime rate is high. Produce a color map of your research and take home the printed copies.

Students are encouraged to bring their personal USB external storage drive. The mapping software is a powerful database management product that produces graphical images requiring processing speed and storage space.

Cost: \$500 for this noncredit one-week course.
Afternoon Activities fee: \$275, includes box lunch and added fun.

REGISTRATION: Complete the Registration Form below. You can register by fax, phone or mail. If paying by check, make payable to Fairleigh Dickinson University. Credit card number must accompany fax and phone registrations. No registration will be accepted without payment in full. A registration confirmation will be sent to you prior to start of the class. You will receive a registration confirmation and medical history forms to be returned to Fairleigh Dickinson University. Directions to the campus along with a campus map will be sent prior to start of the class.

If mailing, detach the form below and send with your payment.
